

**Media Release no. (36)
On 23 /05 /2014**

Judge Dr./ Abdul Aziz Salman, Secretary General of the Presidential Elections Committee, stated that what was published by Reuters and on the Al Fajr newspaper's website concerning what was said about the cancellation of polling stations in South Sinai by judge/ Mohamed Galal, Vice President of the Administrative Prosecution Authority, is unfounded and that all the arrangements for the electoral process in the governorate mentioned are proceeding naturally. He also stated that the supervising judges had been delegated to the polling stations in this governorate and they will be travelling tomorrow.

The Secretary General stressed that no one should talk about the polling stations, delegation of judges or lack thereof and the establishment or cancellation of polling stations except the Presidential Elections Committee's official spokesman. Thus any statements issued by another person shall be with no legal value, even if he/she is a member of the Secretariat of the Committee. Finally, the Committee calls upon all media to take their information only from its official spokesman before publication or broadcasting any news, so as not to confuse public opinion.
