Judge Dr./ Abdul Aziz Salman, Secretary General of the Presidential Elections Committee, made a statement concerning what was published today on the Youm 7 website about granting three thousand permissions to observe the election to the Salafi Da'wah by the Presidential Elections Committee.

The Secretary General of the Presidential Elections Committee stressed that civil society organizations that have been approved by the Committee do not include any organization bearing the name of the Salafi Da'wah, and that also no civil society organization approved by the committee had requested such number of observation permits, thus the news published on the site is unfounded.
