

**Media Release no. (53)
On 31 /05 /2014**

Judge Dr./ Abdul Aziz Salman, Secretary General of the Presidential Elections Committee, stated that it is noted that some websites circulate photocopies for used ballot cards in favor of the second candidate thrown inside a toilet. Accordingly the Committee has examined those cards and determined that these cards are not the ones accredited by the Presidential Elections Committee; as the back of the card is devoid of any data or security marks whereas certain data as well as the logo of the Republic and slogan of the Presidential Elections Committee should be inscribed on the original accredited ballot card.

The Committee calls upon all the media and citizens to be cautious and accurate before publishing or circulating any images or data in the interest of the nation.
